

FB Mono Gloss Baryta 320gsm

Digital & Fine Art Archival Printing Solutions for the Imagemaker

DESCRIPTION OF PRODUCT

A unique premium, nanoporous monochrome paper on a true acid free photographic fibre base. Designed to produce instant dry high quality images on a wide range of photo inkjet printers, compatible with dye & pigment inks.

Superb detail and definition can be achieved with extended tonal range and excellent archival properties. The surface gives a high degree of glossiness, density and vibrancy.

A Baryta coating layer has been meticulously applied to the traditional fibre base, enabling users to create intense, rich black & whites with a DMAX reading of 2.38 – a perfect surface for outstanding portraiture & landscape reproductions for all your monochrome printing.
