Saturn Semi-Gloss Canvas 350gsm

Digital & Fine Art Archival Printing Solutions for the Imagemaker

Description of Product:

A subtle textured semi-gloss/satin poly cotton canvas like structure, suited for the digital photographer intending to create high colour intensity and detail. No OBA's.

The instant dry coating and stiff natural white base performances exceptionally well giving great depth and image sharpness to a wide range of subject matters. Applying PermaSeal adds saturation and will increase the colour intensity. Always varnish your canvases with the PermaPROtect range of varnishes to enhance your artwork but more importantly protect them from UV pollutants & yellowing.
