

Titanium Gloss 300gsm

Digital & Fine Art Archival Printing Solutions for the Imagemaker

Description of Product:

Titanium Gloss has a wonderful smooth metallic finish on a heavyweight 300gsm base. Incredible detail and clarity is achievable delivering stunning resolution & high visual impact making your images jump off the paper with an incredible metallic glossy appearance.

A microporous material that has a great tonal range, wide colour gamut and a high D-max rating which will work extremely well with images that have vibrant colours, deep blacks and shiny white/silver areas. Ideal for images containing reflective metal surfaces such as chrome, silver or even gold and everyday objects such as watches, jewellery, glass, mirrors – the list is endless!

The instant you see and feel this material you will know that it is a true quality metallic glossy paper with a real difference.
